

# Product stop sells and FTTP exchange upgrades

In January 2027, the Public Switched Telephone Network (PSTN) will be switched off and all services migrated to IP or mobile-based products. In the lead up, as Openreach upgrades the UK's digital infrastructure a UK wide WLR Stop Sell commenced on 5 September 2023.

In preparation, Openreach has run trials in both Salisbury and Mildenhall to test the process, and started phasing out new copper services in exchanges where Openreach had reached 75% fibre to the premises (FTTP) coverage.

## What's going on?

As the first pilot location, Salisbury was the first city to have full FTTP coverage. WLR stop sell was announced for December 2020, with all existing WLR services being

moved to new FTTP/Ethernet and IP voice services.

Mildenhall's WLR stop sell was in May 2021, with WLR services being withdrawn and migrated to alternatives such as FTTP, SoGEA, and IP voice services.

Since then, Openreach has announced a total of 1,112 exchanges moving to FTTP (FTTP Priority Exchange Programme).

### **1,112 exchanges moving to FTTP**

Due to delays caused by the coronavirus pandemic the first tranche of upgrades was split in two. As a result, 13 stop sells went live on 29 June 2021 as part of Tranche 1a. The rest went live on 13 October 2021, along with Tranche 2. Then, on 25 January 2022, Tranche 3 went ahead with a stop sell at 47 exchanges.

Tranches 4, 5 and 6 followed in 2022, then Tranche 7 came in on 8 February 2023. Tranches 8, 9 and 10 went ahead in mid to late 2023, with 11 and 12 following in the first half of 2024.

Later this year, we'll have Tranches 13 and 14, with 15, 16 and 17 following in early to mid 2025.

Stop sell will apply at a premises level only, where there's access to an available FTTP product.

- In those premises, stop sell of non-FTTP products will apply. There'll be no new supply of the following: CP transfers; working line takeovers; adding broadband to voice lines; bandwidth modify; start of stopped lines; or migration to non-FTTP products.
- If premises can order FTTP, only FTTP will be available for new

supply. As it becomes available at more premises, these will immediately come within scope of the stop sell.

- For premises outside the FTTP footprint, SoGEA or SOADSL (if applicable) will be made available.
- For PSTN-only services, Pre-digital Phone Line may be applicable as an interim solution.
- Exceptions may apply.

You can see a full list of the impacted exchanges at the end of this document.

## What's impacted?

Currently the PSTN supports a number of Openreach products. These will no longer be available from the stop sell dates. And from the WLR withdrawal in January 2027 (unless otherwise stated), they will no longer work.

### These products include:

- WLR3 analogue
- ISDN2
- ISDN30
- SMPF
- Narrowband Line Share and Classic products.

## What does this mean to you?

First things first, don't panic. Everyone will be having to make the move to all-IP solutions anyway, so this is your chance to get ahead of the game. IP solutions can improve your operations, cost base and service. And we've got a portfolio filled with ideal replacement products. Start incorporating them into your own offering so when 2027 comes around, you'll already have been an all-IP expert for years.

## Why us?

As well as having a network that's built for the future, we've been at the core of the communications industry since it started. We're pioneers, investors and innovators, and we

do the best to give you and your customers solutions that will help you thrive. Not to mention the benefits our digital-ready portfolio brings, such as:

- **reliability** of services hosted in dedicated, secure data centres across the country
- **security** and peace of mind knowing our data centres come with the latest encryption techniques
- **resilient** and dedicated networks with 99.999% availability
- **scalable** services that can be flexed to meet your customers' demands
- **experience** from our experts, including over 1,700 wholesale staff to help you future-proof your portfolio.

## What's the next step?

Simply get in touch with your account manager and let's get the conversation started. We can talk you through the upcoming plans and ensure your customers can be moved onto new services ahead of the withdrawal dates.
